

**Particle suspension hydrodynamic size and surface charge measurement
by dynamic light scattering (DLS) and electrophoretic light scattering (ELS)**

Pos	Item	Unit	Unit price €
1	Use of Malvern Zetasizer analyser	h	50
2	Interpretation of the Results, Consultation	h	95
3	Reporting	h	50

Surcharges

Consumables for particles`surface charge measurement

Minimum Analyser time is 1 h

Prices include Overhead expenses

Prices DO NOT include VAT
